

ABSTRACT OF THE DISCLOSURE

A method for manufacturing a disposable worn article of the present invention includes: a first step of applying
5 an adhesive on at least one of a first web and a second web;
a second step of sandwiching an elastic member between the
first and second webs and combining the first and second
webs and the elastic member together, thereby producing a
combined web; and a third step of melting a portion of at
10 least one of the first and second webs and a portion of the
elastic member, thereby reducing a shrinking force of the
elastic member in the melted portion.
